## **Welcome to the King County Drug Diversion Court Program**

The King County Drug Diversion Court Program provides drug treatment to eligible drug offenders who desire to break the cycle of drug dependency and change their lives.

This handbook provides information about the Drug Diversion Court Program and what is expected of you as a participant.

**Please read the handbook carefully.  
It is your responsibility to be  
familiar with its contents. You will be  
sanctioned if you fail to abide by the  
rules and requirements contained in  
this handbook and the King County  
Drug Court Policy and Procedures  
manual and appendices.**

The King County Drug Diversion Court Policy and Procedures Manual is available upon request in courtrooms in Seattle or Kent or at the King County Drug Diversion Court website: <http://www.kingcounty.gov/courts/DrugCourt>

\*This handbook for King County Adult Diversion Drug Court is designed to structure, but not to eliminate, decision making for all those individuals who seek to join the program as well as those who participate in it. The court reserves the right, in each individual case, to make discretionary decisions consistent with the law and public policy.

## **Drug Diversion Court Program Description**

All participants will be assessed to determine their unique needs. Treatment and program requirements will be dictated based upon those needs.

Drug Diversion Court (DDC) contracts with geographically diverse, community-based treatment agencies that provide outpatient, residential and opiate replacement services. DDC may pay for your treatment in full or in part if you choose one of these agencies. DDC treatment staff will do their best, within available resources, to send you to the treatment program that best suits your needs.

Under certain circumstances, you may obtain treatment at a non-DDC agency, if you find an alternative funding source.

You may try out treatment during Phase I for several weeks before deciding whether to formally join the DDC program, referred to as "opting in." If you want to be accepted into DDC you must, at a minimum, attend treatment and other activities as directed during this try-out period.

Keep in mind that during this time period, the court is also reviewing your unique physical, mental and emotional characteristics to see that you and DDC are a good fit.

After opting in, you remain in treatment for a minimum of 11 months, although the average length of participation is 18 months. You pass through three DDC Phases after opt-in. **If you successfully complete the requirements of DDC, you**

**graduate from the program and your charge(s) is dismissed.**

## **Drug Diversion Court Phases and Requirements**

DDC divides a participant's progress into four phases. These are not the same as treatment phases used by your treatment agency. You will be advanced to the next phase of DDC based on the length of continuous sobriety and attendance at your treatment sessions, sober support meetings, and compliance with other phase requirements. You are expected to remain in full compliance with your treatment agency conditions including additional urinalysis tests as directed. DDC may require more attendance at sober support meetings and drug testing than your treatment agency. The Judge will make the final determination as to your readiness to advance to the next phase.

**The Drug Diversion Court minimum requirements for the Phases are:**

### **Phase I (pre-opt-in)**

Participation in all treatment and any other court-ordered obligations, activities or evaluations as directed. Phase I could last several months.

<b>Requirements for Opt-In</b>	
<b>Complete at 50% or greater</b>	<b>Complete at 100%</b>
Sober Support meetings	Meet with defense counsel re: underlying charge
Groups/Individual Sessions	Attend Orientation and Intake
Take UA's	Attend Intake at treatment agency
	Attend Hearings (held every two weeks)
	Attend Question and Answer Session
	Apply for WA Apple Healthcare

Phase I is a time for you, in consultation with your attorney, to consider your particular legal situation, and whether or not you should opt into drug court or take your case through the regular mainstream justice system.

## **Phase II**

A minimum of 90 consecutive days of 100% compliance with all DDC program requirements including:

- abstinence from drugs and alcohol, attendance at all treatment sessions required by the treatment agency.
- a minimum of 2 random, observed urinalyses (UAs) per week.
- verified attendance at sober support meetings as required.
- attend a drug court graduation.
- participation in any other court-ordered obligations/activities.

- payment of at least 20% of any restitution owed on DDC cases.
- completion of 2 community service hours towards the 24 hours ordered at opt in.

### **Phase III**

A minimum of 120 consecutive days of 100% compliance with all DDC program requirements including:

- abstinence from drugs and alcohol, attendance at all treatment sessions required by the treatment agency.
- a minimum of 2 random, observed urinalyses (UAs) per week.
- verified attendance at sober support meetings as required.
- attend empowerment class within 4 weeks of promotion to Phase III.
- develop an empowerment plan within 2 weeks of attending empowerment class.
- prior to promotion to Phase IV, you must be engaged for a minimum of 19 hours per week of school work training or volunteer service; separately or in combination.
- participation in any other court-ordered obligations/ activities.
- payment of at least 50% of any restitution owed on DDC cases.

- completion of 10 community service hours towards the 24 hours ordered at opt in.

You must also be involved in a productive activity such as employment, job training, education or community service prior to advancing to Phase IV.

#### **During the FIRST 60 days of Phase IV**

- abstinence from drugs and alcohol, attendance at all treatment sessions required by the treatment agency.
- minimum of two random observed ua's per week.
- verified attendance at sober support meetings as required.
- participation in other court-ordered obligations.
- consistent engagement in a minimum of 19 hours per week of school, work, training or volunteer service; separately or in combination.

#### **During the SECOND 60 days of Phase IV**

- abstinence from drugs and alcohol, attendance at all treatment sessions required by the treatment agency.
- minimum of one random observed ua's per week.
- no minimum of sober support meetings per week, attendance during the final 60 days of Phase IV is voluntary.
- participation in other court-ordered obligations.
- consistent engagement in a minimum of 19 hours

per week of school, work, training or volunteer service; separately or in combination.

## **Graduation Requirements**

Generally, you must be abstinent from drugs and alcohol for a minimum of 6 months, be engaged consistently in a productive activity such as employment, job training, education or community service for a minimum of 19 hours separately or in combination, and pay in full any restitution owed. You are also required to complete 24 hours of community service.

**Graduation requirements must be completed by the first hearing after promotion to phase 4, with the exception of restitution and community service hours.**

## **A Special Note about Urinalysis (UA)**

### **Testing**

The observed collection and scientific testing of your urine for drugs, alcohol, and other mood-altering substances is an important part of DDC. DDC uses the results of these tests to determine whether or not you are using drugs, alcohol or other mood-altering substances which are prohibited while in DDC.

Positive UA's are taken very seriously by the court and may result in you receiving a sanction or being terminated from the program. You are responsible to make sure you are UA'd as often as is required by your phase in DDC and by your treatment agency.

**You may be directed to obtain a UA at anytime by a DDC case manager.**

**You must be very careful not to ingest or absorb the following:**

- alcohol;
- poppy seeds in any form (no poppy seed cake, bread, muffins, salad dressing, mustard, etc.);
- any mood-altering substances;
- any prescription medication without medical verification;
- any over-the-counter medications, such as Nyquil or Sudafed, without prior approval from your treatment counselor;
- “natural” or “herbal” remedies or supplements or substances such as those commonly sold in health food stores, or smoke shops.

If you receive a positive UA result because you ingested or absorbed one of the above substances without prior approval, it will be treated as a positive UA by DDC, and you will receive a sanction and/or may be terminated from the program.

### **Dilute/Fake/Adulterated and Out Of Range UA Tests**

Dilute/Fake/Adulterated UAs will result in a jail sanction if there is an admission when confronted, the participant will restart phase two.

### **Out-of-Range (OOR) UA**

An OOR UA at any phase will result in a formal OOR Warning; any additional OOR UA will be treated as a positive UA and will result in a sanction.

## **Request for Confirmation Tests**

If you have received a positive UA result which you believe is in error, you may request a confirmation test from the court or treatment provider; however, a higher magnitude sanction will be imposed if the original results are confirmed.

## **Confidentiality**

As a condition of your participation in drug court, you will be required to sign a release of information which gives your treatment provider permission to give treatment information to DDCCS. The release authorizes DDCCS to share treatment information with your attorney, the DDC judge, prosecuting attorney, law enforcement, probation, other members of the DDC team and other service providers as appropriate.

DDC staff will make every effort to protect your identity by not using your name in research or evaluation activities without your permission.

## **Drug Diversion Court Rules**

### **1. Sanctions**

If you fail to follow DDC requirements, you will receive a sanction. Further, you may be sanctioned or terminated from DDC if you behave in a manner contrary to the rules and regulations of DDC. Sanctions include, but are not limited to:

- in-court “jury box observation,”
- community service hours,
- Community Center for Alternative Programs (CCAP),
- Work Education Release (WER),

- Community Work Program (CWP),
- jail,
- other: accountability panel, attendance at a court-sponsored class, essay writing, increased attendance at sober support meetings, demotion to a prior DDC phase,
- termination.

If you fail to complete a sanction in time, you will receive an additional sanction.

### **Reducing Your Sanction through Honesty**

If you use alcohol or illegal drugs while in the DDC program, you can minimize your sanction by promptly and voluntarily disclosing your use to your treatment provider and to the Court.

Best practice is to tell on yourself before you take a UA. Failure to self disclose will result in a more severe sanction.

***Honesty is essential to your recovery and to your success in DDC. This rule is intended to encourage and reward upfront honesty that supports sobriety and will be applied accordingly. Any dishonesty to the court will result in a sanction and possible termination.***

## **2. Incentives**

If you comply with treatment requirements and DDC rules you will be rewarded and encouraged by the Court through incentives which include:

- verbal praise;
- A chance to draw from the fishbowl in the courtroom and receive tangible rewards, such as gift cards, notebooks, candy, a standing ovation, etc.
- promotion to the next DDC phase;
- placement in a special “express” group whose cases are heard first on the calendar.

### 3. **Treatment Reports**

Your attendance at treatment sessions, sober support groups, the results of your urinalysis tests, and your level of participation in treatment are monitored by the court. Prior to each hearing, your treatment counselor provides a written report to the court on your compliance in all areas.

You are required to have your treatment counselor sign off on your sober support verification. You must also bring your sober support group attendance slips to court with you for every hearing.

### 4. **Court Attendance and Bench Warrants**

While in Phase I and II, you will be required to report to court at least every two weeks. When you advance to Phases III and IV, you will generally be expected to report to court at least every four weeks. The court may require more or less frequent court appearances. At each hearing you will be notified in writing of your next court hearing.

***This is the only notice you will receive.  
If you lose your hearing notice, call Drug  
Diversion Court Services at 206-296-7884 to***

***determine your next hearing date.***

If you have a scheduling conflict, you must call your DDC case manager and attorney at 206-477-0788 before the day of the hearing and ask permission to reschedule the hearing. A bench warrant will be issued if you do not appear. Calls made the day of the hearing will not excuse your absence, unless you have a verifiable emergency.

***It is your responsibility to address the bench warrant.***

If you wish to ask the Court to address a bench warrant, generally, you may appear at a drug court calendar and request to quash the bench warrant. You will be seen if time permits. The Court may or may not quash the warrant depending on the circumstances.

If you are receiving methadone and a bench warrant is issued, your methadone clinic will begin a 7-day detox, unless you appear in court on the next court day to address the warrant.

If you are arrested on the bench warrant, you will remain in custody until the next “in-custody” calendar. You are less likely to spend time in jail if you voluntarily appear in court to address your warrant.

**5. Rapid Response Calendar**

It is important to address compliance issues as soon as they arise. The case manager, a treatment counselor, or you yourself may request to have your hearing accelerated so as to discuss your compliance with the court. If your case manager or a counselor notifies you

of an accelerated hearing date, you must appear for the hearing. A failure to appear for an accelerated hearing may result in the court issuing a warrant for your arrest.

**6. Drug Diversion Court Waiver and Agreement**

If you request to move to Phase II (opt into the program) and the court grants your request, you are not required to plead guilty. However, you will be required to sign the DDC Waiver and Agreement. By signing the Waiver and Agreement, you give up certain rights, including the right to resolve your case mainstream. Failure to abide by all of the terms in the DDC Waiver and Agreement may result in termination from the program. You agree to complete 24 hours of community service.

**7. Sober Birth Date**

You are expected to keep track of your sober birth date. The sober birthdate is the day following the last time you used alcohol or any unauthorized drugs. Each time you come to court, you must report your sober birthdate. You do this by filling out an information update form located next to the sign in sheet in the courtroom. Give the completed form to your attorney who will provide the form to the judge. Giving a false sober birthdate will result, at a minimum, in a jail sanction.

**8. Drug Diversion Court Community Service Hours**

Before graduating from the program you are required to perform 24 hours of community service at a not for profit agency. You must provide proof of completion on letterhead stationery from the agency.

<b>Community Service Hours Schedule</b>	<b># of Hours to be Completed</b>
In order to move to Phase III	2
In order to move to Phase IV	10
In order to graduate	12

## **9. Residential Treatment**

When therapeutically appropriate, the court mandates residential treatment. If you enter residential treatment ordered by DDC, you must complete the treatment as directed by the treatment center. If you leave treatment against the advice of the treatment center you will be sanctioned to a minimum of 10 days in jail or terminated from the DDC program.

## **10. Courtroom Behavior**

Your hearings will be scheduled on a morning or afternoon calendar. You are required to be in the courtroom at the beginning of the calendar on the day your hearing is set. You will be expected to maintain appropriate behavior at all times during DDC hearings and while in the courthouse, including but not limited to:

- Remaining in the courtroom during the entire calendar until your case is heard.
- Remaining quiet and attentive, no side-talking while in the courtroom.
- Turning off cellular phones and texting ability before entering the courtroom.
- Not sleeping in the courtroom.
- Not eating or drinking in the courtroom.

- Removing gum before approaching the bench to talk with the Judge.
- Not wearing hats in the courtroom.
- Not participating in public displays of affection.

#### **11. Other Rules**

- You cannot leave the state without first obtaining permission from the court.
- Possession of firearms is prohibited.
- You cannot reside where a firearm is present.
- No threatening, harassing or assaultive, disrespectful or disruptive behavior of any kind in DDC, at treatment or in the community at large.

#### **12. New Offenses**

If you are charged with a new crime, you may be terminated from the program.

#### **13. Prescription Medications**

As a general rule, you are expected to be drug free, including the use of mood-altering prescription medications. DDC participants with chronic pain requiring repeated use of prescription pain medication (opiate, opiate-based, benzodiazepine medications, or marijuana) are not good candidates for the DDC program. If you take prescription medications or other mood-altering substances that would cause a positive urinalysis result while in DDC, you may be sanctioned or terminated according to the following guidelines:

If you opt into DDC and then experience an

episode of acute pain requiring prescription pain medication, you must have the Drug Court prescription form completed by your doctor. The doctor will be asked to indicate on the form that he or she is aware that you are in DDC and that you are expected to remain drug free except in extreme instances.

Forms are available through the court, Drug Court Services or the Drug Court website. Completed forms should be provided to your treatment provider at your next appointment and shown to the court at your next hearing. The form includes the following:

- Doctor's name, signature and contact information;
- Description of the medication prescribed;
- Amount prescribed (including refills);
- Reason for prescription, and
- Duration of treatment

The Court has the discretion to rule that a defendant's legally prescribed medication is inconsistent with the court's ability to monitor program compliance, and could lead to termination.

Use of prescription drugs, other than psychotropic and antibiotics, may impact your clean time and progress in DDC.

## **14. In Custody Treatment Program / TRP**

- If you are charged with the crime of delivery of a controlled substance, possession with intent to deliver a controlled substance, or if you are facing Department of Corrections commitment time if convicted, the presumption is that you will be required to complete a minimum 60 day treatment program in-custody.
- DDC may require participation in a treatment program in-custody as a condition of your remaining in the DDC program.
- Following completion of the 60 day treatment program in-custody, the court reserves the ability to order controlled release into the community which may include work education release, Community Center for Alternative Programs or verified clean and sober housing. The DDC Team will staff your case midway through your time in the in-custody treatment program to plan for an appropriate release mode.

## **15. Termination**

Due to many factors, there are instances when your continuation in the DDC program is unproductive for you, the program, or both. In making the decision regarding whether to terminate you from DDC, the court may consider your past efforts regarding compliance and progress in the program.

Examples of violations, which may result in termination:

- Dishonesty to the court.
- Positive Urinalysis or Breath Analysis

- Missing UA's or treatment sessions.
- Not attending sober support group meetings as required.
- Non-compliance with required treatment program.
- Falsifying UA's, community service, or sober support meeting attendance forms.
- Failure to abide by the terms of the DDC agreement or rules in the handbook.
- Threatening, harassing or assaultive behavior of any nature at treatment or in the community at large.
- Arrest for a new offense of any kind;
- Using prescription drugs or over-the-counter drugs without following drug court rules.
- Failure to pay restitution.
- Failure to appear at hearings.
- Any other act that is deemed in violation of the requirements of DDC.
- Inability to regularly participate in required treatment, including urinalysis testing, treatment sessions, sober support meetings, and/or review hearings with the court.

Termination from the DDC may be voluntary or involuntary. You may decide to terminate from the program because the program no longer serves your needs (voluntary), or either party or the judge, on his or her own motion, may move for your termination

(involuntary) due to non-compliance.

If you are terminated, a determination of guilt shall be made immediately based upon the stipulated police report.

## **16. Drug Diversion Court Graduation**

When you have successfully completed the DDC Program, you will graduate, and your case(s) will be dismissed. The DDC Judge will determine the time frame for your graduation.

Your family and friends, counselors, and sponsors are invited to attend your graduation ceremony that honors your successful completion of the DDC Program and your achievement of a drug and alcohol-free life.
